**Introduction**

Please be advised that the Alameda County Solid Waste Local Enforcement Agency (LEA) received and approved a Report of Facility Information (RFI) Amendment for the Solid Waste Facility Permit (SWFP) of Vasco Road Landfill (VRL). The LEA is certified by the California Department of Resources, Recovery and Recycling (CalRecycle) to enforce state laws and regulations at solid waste facilities within the Alameda County.

**Description of project and LEA's determination**

The Project Applicant, Republic Services Vasco Road, LLC, currently operates a solid waste facility on 323 permitted acres area allowing 246 acres for disposal. This facility is located at 4001 North Vasco Road, Livermore, CA 94550. On February 15, 2013, the LEA received from VRL, a SWFP application package to amend the RFI requesting to update the document to:

- Update the RFI pursuant to the changes requested in the 5 Year Permit Review Report dated June 27, 2012.
- Update the Joint Technical Document (JTD) to include the total number of perimeter gas monitoring probes, the landfill gas-to-energy (LFGTE) facility and a sub-unit for the twenty-two partial closure area.

No other changes to the SWFP are under consideration at this time. The LEA finds that the proposed changes are consistent with the California Department of Resources, Recovery and Recycling State Minimum Standards, and is consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents. The proposed changes do not conflict with the terms and conditions in the current SWFP. The LEA approved the amendment on March 14, 2013.

**Where copy of application can be reviewed**

A copy of the application package is available for public review by appointment in the LEA office located at 1131 Harbor Bay Parkway, Alameda, CA 94502 or in the VRL office at 4001 North Vasco Road, Livermore, CA 94550
