## 1. EXECUTIVE SUMMARY

MED-Project LLC (“MED-Project”) operates a Product Stewardship Plan for Sharps from Households (“Plan”) in the County of Alameda under the County of Alameda Safe Consumer-Generated Sharps Disposal Ordinance, Alameda Municipal Code Chapters 6.54.010 – 6.54.180 (“Ordinance”). This 2018 County of Alameda Annual Sharps Report (“Report”) describes the activities of MED-Project between March 26, 2018 to December 31, 2018 (the “Reporting Period”) in compliance with Ordinance Section 6.54.120. MED-Project activated a call center and website, began Sharps collection at Sharps Kiosk Drop-Off Sites and through Mail-Back Services, and distributed education and outreach materials in 2018. All capitalized terminology not defined in this annual report is derived from the current approved plan dated January 31, 2018, as amended on March 26, 2018.

MED-Project’s Plan dated January 31, 2018, as amended on March 26, 2018, was approved by the County of Alameda Department of the Environment (“Department”) on March 26, 2018. MED-Project began implementing the Product Stewardship Program (“Program”) in 2018. During 2018, priority was given to establishing Sharps Kiosk Drop-Off Sites throughout Alameda County, conducting Take-Back Events in alignment with approved Plan goals, and performing outreach to eligible pharmacies, community organizations, local government agencies, health associations, and Law Enforcement Agencies (“LEAs”) throughout Alameda County. As a result of these efforts, MED-Project’s Program collected and disposed of “Sharps” (as defined in Plan Section V) collected from twenty-eight (28) Sharps Kiosk Drop-Off Sites, residential Mail-Back Services and three (3) Take-Back Events in 2018.

Sharps kiosks were installed in pharmacies and LEAs that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials were distributed to all participating Sharps Kiosk Drop-Off Sites, including signage and/or brochures.

As outlined in the approved Plan, the ultimate goal of the Program is to provide Alameda County residents with convenient, safe, and accessible methods to dispose of Sharps. MED-Project anticipates a steady increase in Sharps Kiosk Drop-Off Sites throughout 2019 as a result of outreach, educational, and promotional Program activities, especially if there is an increase in retail chain pharmacy participation.

MED-Project continues to communicate with Sharps Kiosk Drop-Off Site Hosts participating in the Program to coordinate and monitor implementation, and ensure materials for Residents are available at all participating Sharps Kiosk Drop-Off Sites.

The following sections of the Report address the specific reporting requirements in Ordinance Section 6.54.120. Each section of the Report states the corresponding Ordinance requirement and provides the required information.

## CHECK THE PACKAGE

If there are any specific instructions for disposal on the label, package, or package insert, please follow those instructions. Do not flush any medication down the toilet unless the information on the label, package, or package insert specifically instructs you to do so.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

To protect your privacy, consumers are reminded to remove all personally identifiable information on medication labels or packaging before disposing of used sharps.

## IN-HOME DISPOSAL

If no disposal instructions are given on the drug labeling and no take-back program is available in your area, throw the drugs in the household trash following these steps:

1. Remove them from their original containers and mix them with an undesirable substance, such as used coffee grounds, dirt, or kitty litter (this makes the drug less appealing to children and pets, and unrecognizable to people who may intentionally go through the trash seeking drugs).
2. Place the mixture in a sealable bag, empty can, or other container to prevent the drug from leaking or breaking out of a garbage bag.

## MEDinfo

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It's vitally important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It's also important to be sure to store medications and sharps securely to prevent accidental ingestion or misuse by others in your household, especially children.

There are a number of ways to dispose of expired or unwanted medicines and sharps. To protect your privacy, consumers are reminded to remove all personally identifiable information on prescription labels or materials before using any of the available disposal options.

##### 4 TAKE-BACK EVENTS

Take-Back Events also may be scheduled in your area. Visit [www.med-project.org](http://www.med-project.org) to find events near you.

#### HOUSEHOLD SHARPS DISPOSAL

Sharps can be dangerous to people and pets if not disposed of safely. Sharps can cause injuries and/or spread infections that cause serious health conditions. These infections may include: **Hepatitis B (HBV)**, **Hepatitis C (HCV)**, and **Human Immunodeficiency Virus (HIV)**.

Safe sharps disposal is important whether you are at home, at work, at school, traveling, or in other public places such as hotels, parks, and restaurants. Pet owners who use needles to give medicine to their pets should follow the same sharps disposal guidelines used for humans.<sup>1</sup>

##### SHARPS DISPOSAL CONTAINERS

Sharps containers must be: made of a heavy-duty plastic; able to close with a tight-fitting, puncture-resistant lid, without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.<sup>1</sup>

**DO NOT REUSE SHARPS DISPOSAL CONTAINERS.**

## ACCEPTED FOR SHARPS DISPOSAL

**ACCEPTED:** SHARPS (SUCH AS HYPODERMIC NEEDLES, PEN NEEDLES, PRE-LOADED SHARPS, AUTO INJECTORS, INTRAVENOUS NEEDLES, LANCETS AND OTHER DEVICES USED TO PENETRATE THE SKIN FOR DRAWING BLOOD, OR FOR THE DELIVERY OF MEDICATIONS) CONTAINED IN SHARPS CONTAINERS APPROVED BY THE U.S. FOOD AND DRUG ADMINISTRATION.

**NOT ACCEPTED:** UNWANTED MEDICINE, CONTROLLED SUBSTANCES, AND SHAVING RAZORS.

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It's vitally important that patients take their medicine as prescribed by their health care provider and as indicated on the label or packaging. Storing used sharps securely to prevent accidental ingestion, sticks, or misuse (especially by children) is also very important.
