

SMALL QUANTITY MEDICAL WASTE GENERATOR REGISTRATION/PERMIT APPLICATION FORM

Pursuant to Division 104, Part 14, California Health and Safety Code, California Medical Waste Management Act, all generators of medical/biohazardous waste in Alameda County must register with the local enforcement agency, Alameda County Department of Environmental Health (DEH). Facilities that generate less than 200 pounds of medical waste per month are categorized as Small Quantity Generators (SQG). If this facility generates more than or equal to 200 pounds of medical/biohazardous waste per month, in any month of the year, this facility would be categorized as a Large Quantity Generator (LQG) and will need to register with DEH using a separate form (Medical Waste Generator Registration Form).

If your facility does NOT generate any medical/biohazardous waste, please complete this form and sign the "Certification for Non-Medical Waste Generators" statement located on the back of this form.
